MICHIGAN ENGINEERING
UNIVERSITY OF MICHIGAN

COMPETENCY ASSESSMENT EXERCISE

Michigan Engineering Competencies

Communication: Ability to listen, reflect, and convey information effectively in a variety of media (oral, written, digital, graphical) to diverse audiences with different needs and perspectives across a variety of settings and contexts.

Creativity: Ability to create ideas, processes, products that are both novel (unique, original, atypical, cutting-edge) and appropriate (relevant, practical, useful, applicable, fitting, effective).

Empathy: Ability to take the perspective of someone else by reasoning from their premises, assumptions, or ideas in order to facilitate effective communication.

Entrepreneurial Mindset: Ability and intent to engage proactive, innovative strategies in various contexts to solve ambiguous problems.

Ethics: Fully engage stakeholders to recognize that actions have consequences, and that one must act with integrity and trustworthiness to promote the common good.

Global/Cultural Awareness: Ability to understand, practice, and articulate one's own cultural identity to better adapt to and interact with other individuals and cultures. (cultural, technical, religious, etc.)

Grit/Resilience/Persistence: Ability to persevere and maintain passion for achievement of long-term goals.

Leadership: Seeking opportunities to cultivate an environment that collectively develops a shared purpose and inspires others to work toward it.

Lifelong Learning: Ongoing desire and fundamental ability to recognize personal skills/knowledge deficits; seek out and acquire needed skills and knowledge; and explore and develop new interests, talents, and passions.

Risk Management: Ability to critically assess available information, take action despite uncertainty, manage outcomes, and learn from failure as well as from success.

Systems Thinking (Authentic Problem Solving): Ability to understand the complex structures embedded in a system while maintaining a view of the big picture problem to be solved.

Teamwork: Working to achieve a shared goal by leveraging individuals with different perspectives, roles, responsibilities, and aptitudes to overcome conflict and create community.

INSTRUCTIONS

Use the chart on the following page to connect your top learning experiences to date to the Michigan Engineering competencies listed above.

Step One: On the attached document, select your current level of proficiency by typing an "X" in the corresponding box. An explanation for each level of proficiency is included below.

Step Two: Describe in detail your reasons for your selections.

Step Three: Provide specific details on how you plan to increase your level of proficiency in each area.

Step Four: Create section in your MPortfolio called Honors Plan (or something similar) and upload this grid along with 1-2 SMART goals about your time in Honors or at Michigan. Also include your Focus Area Reflection from your post-work. You may make that work private, if desired, and share it only with honorsgsi230@umich.edu

Proficiency Scale

Exploring	Engaging	Explaining
Few prior experiences, skills or knowledge in this area	**Substantial prior experiences, skills or knowledge in this area**	**A wide array of prior experiences, strong skills or knowledge in this area**
ex. I've taken ENTR 407 or another entrepreneurial course, but I still think I've just started learning about what constitutes an "entrepreneurial mindset"	ex. I've expanded my breadth on intercultural intelligence by taking three classes on different cultures, and studying abroad, but I don't know much about many other cultures in-depth	ex. participating in MECC over the past three years has strengthened my collaboration skills to an exemplary level. I can talk about my experience with some level of expertise in a meaningful way

Michigan Engineering Competency	My Current Level of Proficiency (place an "X" in the box you select)			Why did I select this proficiency level?	What will I do to further develop in this area?
	Developing	Proficient	Exemplary		
Communication		X		I love communicating and collaborating with others, however, there is always some room for improvements	I will try to communicate more clearly and more specific with goals
Creativity			X	I always find myself coming up with very creative ways to solve problems, even when there are simpler and straighter forward methods	I will try to think of simpler way to solve problems, and still take creativity into account
Empathy	X			I feel like sometimes I do not really feel what others go through well, or notice.	I will pay more attention and try hard to read what other people are thinking to bring everyone closer together
Entrepreneurial Mindset	X			I feel like I do not act when good opportunities arrive	I will be more mindful and take advantage of opportunities as they come along
Ethics		X		I feel like I take ethics as a pretty big deciding factor when making decisions	I could look more deeply into how ethics effect everyday decisions
Global/Cultural Awareness	X			I feel like I often overlook this	I will try to work on including the impact of cultural differences when acting on something
Grit/Resilience/Persistence			X	I often will power through hard times, and I do not like giving up even when things get out of hand	When things start to spiral, I can try to focus on something else and come back later to fix the issue
Leadership	X			I feel like you are never proficient at being a leader, there are always room for improvement	I will learn from others who may have leadership positions

Lifelong Learning		X		I always try to learn from past mistakes, and become better	I will reflect on each mistake, and try not to make the same mistake again
Risk Management		X		I am most of the time very careful when working on things that may seem dangerous, to not cause harm to me or others around me	I can try harder at identifying sources of harm before initiating
Systems Thinking	X			I focus most of the time on one thing, and not the whole system	I will try to consider the whole system and how each part contributes as a whole
Teamwork			X	I love collaboration, and try to collaborate with others often to exchange ideas and work on projects together	I can better management the workload and progress in the teamwork environment

(Include additional comments here, as needed.)
